Student Worksheet: Intelligences Assessment

Objective: Students will explore the Intelligences Career Assessment results in order to identify the career clusters and necessary education levels for careers of interest.

Students will compare and contrast the education level and salary range of at least three careers they identified by completing the Intelligences assessment.

Warm-Up

— List and describe the types of degrees and certificates you can earn after high school.

— Read the page Education After High School in order to learn about the different types of degrees and certificates available to you.

Intelligences Career Assessment

— Sign in to **CaliforniaColleges.edu**, navigate to **Career** at the top of the page, and click on **Intelligences** in order to complete the assessment.

— Click **Career and Pathways** and favorite (❤) any careers of interest that do not already have a heart.

— Click on the **Career Title** of any career that interests you to view the **Career Summary** and learn more.

— Sort the **Career and Pathways** results by clicking on **Rating**; your favorited careers will rise to the top.

— Select three favorited careers and review the **Career Summary** for each one in order to identify the **Career Cluster** and **Education Level** using the key below:

Key	
Education	**Description**
	**Job Zone 1:** May require a high school diploma or GED. Little or no previous work-related skill, knowledge, or experience is needed.
	**Job Zone 2:** Usually requires a high school diploma. Some previous work-related skill, knowledge, or experience is usually needed.
	**Job Zone 3:** Most require training in vocational schools, on-the-job experience, or an associate's degree. Previous work-related skill, knowledge, or experience is required.
	**Job Zone 4:** Most require a bachelor's degree or similar post-secondary certification. A considerable amount of work-related skill, knowledge, or experience is needed.
	**Job Zone 5:** Most require a master's degree, Ph.D., M.D., J.D., or other professional degree. Extensive skill, knowledge, and experience are needed.
